**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

Broadband internet is the future for every man woman and child in America. Please don't let our future be controlled by one or two major players. What makes this country great is competition in the marketplace. Allowing this USTelecom bill through would limit competition purely because the big telecom companies would rather rest on their laurels and charge us whatever the hell they feel like. Force them to compete with other companies and new emerging companies. This bill is a prime example of crony capitalism and is the exact opposite of the "drain the swamp" promise made to the American people by the President.
